### Mt Aubrey – EL8532 (GRL 100% ownership)

As [announced on 22 July 2020](#), Godolphin Resources Ltd (“Godolphin”- ASX: GRL) commenced Phase 2 drilling at Mt Aubrey on Wednesday 5 August 2020, the start of the drill programme having been delayed by heavy rainfall in late July.

The first RC drill hole T-MAR032 was completed on Thursday 6 August with a final depth of 126 metres, intersecting good visible quartz veining. Drill samples from T-MAR032 have been submitted to the laboratory for assay.

Since Friday 7 August, heavy rainfall continued at Mt Aubrey and necessitated alternative drill sites at Copper Hill East be evaluated for access. These also proved inaccessible which has unfortunately resulted in the temporary suspension of the Mt Aubrey drill programme.

Drilling at Mt Aubrey will resume as soon as possible once access is again available.

### About Godolphin Resources

Godolphin Resources (“Godolphin” – ASX: GRL) is an ASX listed resources company, with 100% controlled Australian-based projects in the Lachlan Fold Belt (LFB) NSW, a world-class gold-copper province. Currently the Company’s tenements cover 3200km<sup>2</sup> of highly prospective ground focussed on the Lachlan Transverse Zone, one of the key structures which controlled the formation of copper and gold deposits within the LFB, the Godolphin Fault and the Molong Volcanic Belt. The Gundagai projects are associated with a splay of the Gilmore Suture mineralised structure. The Orange-based Godolphin team is rapidly exploring its tenement package with focussed, cost effective exploration leading to systematic drilling programmes.

This market announcement has been authorised for release to the market by the Board of Godolphin Resources Limited.
